BADGERWheeled

Wheeled Fire Extinguishers

Carbon Dioxide Self-Expelling Models

These quality wheeled fire extinguisher models are designed for single person use and operation. They are extremely versatile and ready to tackle flammable liquid and electrical equipment fire hazards. They are ideally suited for industrial applications where delicate equipment or processes require a clean extinguishing agent.

Carbon Dioxide is an effective and clean gaseous extinguishing agent that leaves no residue to clean up. These models are suitable for use on Class B and C fires.

Features

- 50 and 100 pound models
- · Heavy duty hand wheel cylinder activation valves
- DOT specification steel cylinders
- Easy to read nameplates
- · Corrosion resistant epoxy powder paint finish
- Heavy duty steel frame
- 16 inch semi-pneumatic rubber wheels
- · Heavy duty industrial discharge valve & nozzle
- · Quick release discharge nozzle retainer
- UL Listed meets D.O.T. requirements
- 5 year periodic hydrostatic test interval
- 6 year product warranty

Dry Chemical Stored Pressure Models

Quality wheeled fire extinguisher models designed for single person operation and to pass easily through standard doorways. Badger stored pressure wheeled extinguishers are economical and ideal for addressing the many forms of high risk fire hazards sometimes found within commercial and industrial applications.

Badger dry chemical extinguishing agents contain the highest percentage of essential base ingredients found in the fire extinguisher industry. The "Multipurpose" agent models are suitable for use on Class A:B:C fires. The "Regular" and "Purple-K" agent models are suitable for Class B:C fires.

- Multipurpose, Regular & Purple-K dry chemical agents
- Heavy duty cylinder activation valves
- DOT 4BW specification steel cylinders
- Corrosion resistant epoxy powder paint finish
- Heavy duty steel frames
- 12 and 16 inch semi-pneumatic rubber wheels
- Heavy duty swivel discharge nozzles
- Easy to read nameplates
- UL Listed & USCG Approved meets D.O.T. requirements
- 5 year periodic hydrostatic test interval
- 6 year product warranty

Designed for single person operation and to pass easily through standard doorways. Badger regulated wheeled extinguishers are ideal for high risk fire hazards that dictate consistent agent discharge flow rates and ranges throughout a fire fighting evolution. Ideal for rugged industrial applications that desire quick and simple on-site equipment recharge capability.

Badger dry chemical extinguishing agents contain the highest percentage of essential base ingredients found in the fire extinguisher industry. The "Multipurpose" agent models are suitable for use on Class A:B:C fires. The "Regular" and "Purple-K" agent models are suitable for Class B:C fires.

- Nominal 150 pound model sizes
- Multipurpose, Regular and Purple-K dry chemical agents
- Heavy duty cylinder activation valves
- Corrosion resistant epoxy powder paint finish
- Heavy duty steel frames
- 16 inch (rubber) or 36 inch (steel) diameter wheel
- 50 foot x 3/4 inch discharge hose
- · Heavy duty discharge nozzles
- Easy to read nameplate
- UL Listed meets D.O.T. requirements
- 12 year periodic hydrostatic test interval
- 6 year product warranty

Dry Chemical Pressure Transfer Models

High capacity wheeled fire extinguisher models designed for single person operation and to pass through 36-inch wide industrial doorways. Badger pressure transfer wheeled extinguishers are ideal for use in rugged industrial applications or anywhere the need for quick and simple on-site equipment recharge capability is desired.

The "ABC" agent models are suitable for use on Class A:B:C fires. The "Regular" and "Purple-K" agent models are suitable for Class B:C fires.

- Nominal 350 pound model sizes
- Multipurpose, Regular and Purple-K dry chemical agents
- Heavy duty cylinder activation valves
- · Corrosion resistant epoxy powder paint finish
- · Heavy duty steel frames
- · 36 inch diameter x 6 inch wide steel wheels
- 50 foot x 1 inch discharge hose
- Heavy duty discharge nozzles
- · Easy to read nameplate
- UL Listed & USCG Approved meets D.O.T. requirements
- 12 year periodic hydrostatic test interval
- 6 year product warranty
